

Technical drawing of a T-shaped profile. The top horizontal flange has a total width of 160. The vertical stem has a width of 35. The distance from the left edge of the flange to the centerline of the stem is 125. The height of the vertical stem is 70. The drawing includes dimension lines and arrows indicating the measurements.

Technical drawing of a stepped profile. The profile consists of a vertical section on the left, a horizontal section in the middle, and a vertical section on the right. The total height of the left vertical section is 63. The horizontal section has a height of 30. The right vertical section has a height of 53. The total width of the profile is 70. The horizontal section has a width of 64. The profile is drawn with a 3D effect, showing a top surface and a right side. The dimensions are indicated with arrows and numbers.

Technical drawing of a stepped profile. The profile consists of a vertical section on the left and a horizontal section on the right. The vertical section has a total height of 70 and a width of 35. The horizontal section has a total length of 160, which is composed of a 125 segment and a 35 segment. The horizontal section has a height of 64. A dashed line indicates a horizontal feature at the top of the vertical section, extending 35 units from the left edge.
